

Karen Marie Kasigila

kkasigil@uwo.ca | +1-226-386-9241 | London, Ontario | [Portfolio Link](#) | [Github Link](#) | [Linkedin Link](#)

Technical Skills

Languages: Python, SQL	Databases: MySQL, Firebase
Libraries: Pandas, NumPy, Scikit-learn	Data Visualization: Tableau, Power BI, Matplotlib
Frameworks: Pandas, Scikit-learn, Flask, Firebase	Tools: Git, Figma, Excel
Concepts: Machine Learning, Predictive Modeling, Data Cleaning, Statistical Analysis, A/B Testing Dashboard Development	

Education

Master of Data Analytics (Finance, Banking & Insurance Stream) <i>University of Western Ontario, London, Ontario</i>	Graduating August 2027
Bachelor of Science in Data Science (with a Minor in Innovation & Entrepreneurship) <i>Andrews University, Berrien Springs, Michigan</i>	May 2026

Professional Experience

Search Product Tester at Google Mountain View, California, USA	June 2026 - Present
--	----------------------------

- Evaluating pre-release Google Search and AI-powered products through structured usability testing, providing actionable feedback on functionality, search relevance, user experience (UX), and product performance.
- Analyzing AI-generated outputs and emerging machine learning features, identifying opportunities for optimization, accuracy improvement, and enhanced user engagement.
- Participating in product research initiatives and beta testing programs, contributing qualitative insights that inform iterative product development and feature enhancement decisions.
- Collaborating with cross-functional product, engineering, and UX teams to assess experimental technologies, validating user workflows, and supporting data-driven product innovation.

Data Scientist Intern at Ifakara Health Institute Dar es Salaam, Tanzania	Jun 2025 – Aug 2025
---	----------------------------

- Analyzed national malaria and community-health data using Python, SQL, and Pandas to identify high-risk zones.
- Created data dashboards that improved monitoring and reporting accuracy by 25%.
- Presented statistical findings to research and policy teams to support data-driven decision-making.

Data for Good Hackathon (2nd Place Winner) at J.P. Morgan Chase & Co Dallas, Texas	Apr 2025
--	-----------------

- Built a geospatial analytics dashboard (React, Node.js, Mapbox) mapping underserved ZIP codes.
- Designed Compass Connect, an AI-driven platform visualizing social-service impact across regions

Climate Finance Strategist Intern at Sustainable Solutions for Africa (SSA) Lomé, Togo	Jun 2024 – Aug 2024
--	----------------------------

- Led the design of Namibia’s Climate Finance Strategy, aligning national policy with UN SDG targets.
- Developed financial models in Excel and Python to optimize climate-funding allocation, increasing accuracy by 25%.
- Produced visual reports and presentations adopted by senior policymakers.

Data Scientist Intern at NMB Bank Plc Dar es Salaam, Tanzania	May 2023 – August 2023
---	-------------------------------

- Automated credit-risk analytics pipelines with Python and SQL, cutting report generation time by 20%.
- Created predictive models to assess loan-default probability, informing SME lending strategy.
- Implemented Tableau dashboards used by management to track portfolio health.
